

Melato – How to Use Guide

A simple, step-by-step guide explaining the features available in Melato for **Wholesalers, Retailers, and Drivers**, and how to access and use them.

Retailer (Buyer)

Browse fresh produce, place bulk orders, track order history & manage spends.

Wholesaler

Manage stock, process incoming retailer orders, view demand & track earnings.

Driver

Accept delivery requests, manage pickups, confirm deliveries & check trip earnings.

1. Getting Started & Account Setup (All Users)

[SETUP](#)

🔑 Login & Sign Up

- Open the app and select your role: **Wholesaler**, **Retailer**, or **Driver**.
- Enter your registered **Mobile Number** or Email Address.
- Enter the **OTP** received on your phone/email to log in securely.
- New users can switch to the "Register" tab to create an account.

📄 Business Registration & KYC Info

- **Business Details:** Enter Business Name, Owner Name, Business Category, Business Type, and Established Year.
- **Legal & Tax Details:** Enter Mobile Number, Email, GST Number, PAN Number, Aadhaar Number, and Government License Number.
- **Update Business Info:** Update contact info, business status (Active/Inactive), and address anytime under Business Info.

📍 Business Locations

- View all registered shop or warehouse locations.
- Tap **Add New Location** to add branch addresses (City, State, Full Address, Contact, Email, GST, PAN).
- Retailers can select which location orders should be delivered to, and Wholesalers can manage where stock is stored.

⚙️ Settings & Language Selection

- **Language:** Switch between **English** and **Hindi (हिन्दी)** anytime.
- **Profile & Security:** Manage profile information and log out securely.

Home Dashboard & Product Search

- **Browse Categories:** View products grouped by categories (Vegetables, Fruits, etc.).
- **Search Items:** Use the search bar to find items quickly by name.
- **Product Details:** View unit pricing, available stock quantity, and minimum order requirements.

Cart & Units Management

- Add items to cart and adjust required quantities.
- Supports standard agri units (**KG, Quintal, Ton, gm**).
- Review subtotal, taxes, delivery charges, and total order cost.
- Select the delivery **Business Location** where goods should be sent.

Checkout & Payment

- Review your order summary and delivery address.
- Choose your preferred payment method (Online Payment / UPI / Cards / Cash or Credit terms as available).
- Tap **Place Order** to receive an instant order confirmation screen with Order ID.

Retailer Order History & Order Details

- **Track Active Orders:** View the current status of placed orders (Pending, Confirmed, Ready, In Transit, Delivered, Cancelled).
- **Order Details:** Open any order to view full line-item details, pricing breakdown, supplier info, and order date/time.
- **Past Orders:** Access complete history of previous purchases.

Spends & Retailer Trends

- **Spends:** View total expenditure summary over time to track your procurement budget.
- **Retailer Trends:** Check price and purchase trends to make smarter buying decisions.

Report an Issue / Disputes

- If there is an issue with your order (damaged goods, wrong item, quantity shortage, or delivery issue), tap **Report Issue** on the order.
- Select the issue category, describe the problem, and submit the ticket.
- Track the status and resolution of your ticket in **My Issues**.

Wholesaler Home Dashboard

- **Quick Stats:** View Today's Earnings, This Week's Revenue, Pending Payouts, Total Stock, and Active Orders.
- **Stock Deduction on Order:** When a buyer places an order, the stock automatically gets deducted from your total available stock in real time.
- **Recently in Demand:** View trending products frequently ordered by retailers.

Stock Dashboard & Add / Update Stock

- **Stock Dashboard:** View all products in your inventory with current quantities (In Stock, Needs Attention, Out of Stock).
- **Add Stock:** Add new commodities, set product name, category, unit (KG, gm, Quintal, Ton), price per unit, and available quantity.
- **Update Stock:** Quickly adjust available quantities or prices as stock changes.

Orders Received & Order Details

- **Orders Received:** View list of orders placed by retailers, review ordered items, quantities, buyer details, and accept/prepare orders for dispatch.

Pickup Orders

- View orders that are packed and ready for driver collection.
- Coordinate hand-off with the driver when they arrive for pickup.

Demand Insights, Trends & Earnings

- **Next-Day Demand & Past Demand:** View predicted demand for tomorrow to prepare stock in advance.
- **Restocking Recommendations:** Check recommendations on which items need restocking.
- **Trends & Market Opportunities:** View sales trends, demand trends, stock insights, and market price comparisons.
- **Earnings Dashboard:** Monitor gross earnings, completed payouts, and pending balances.

Wholesaler Disputes & Issues

- Report any order or pickup problem directly from the order screen.
- Track investigation status and resolution history under **My Issues**.

Driver & Vehicle Registration

- Enter Driver Basic Information (Name, Mobile Number, Experience).
- Upload required documents (Driving License, ID Proof).
- Enter Vehicle Details (Vehicle Type, Registration Number, Capacity).

Driver Dashboard & Transport Requests

- **Dashboard:** View active delivery tasks, completed trips, and today's summary.
- **Transport Requests:** View incoming delivery job requests with pickup location, drop location, load details, and estimated fare.
- **Accept Requests:** Drivers can directly accept available delivery requests to take up the job.

Pickup Orders

- View the list of accepted orders waiting for pickup at wholesaler locations.
- Navigate to the wholesaler address, verify package count, and confirm pickup in the app.

Delivery Confirmation

- Navigate to the retailer's delivery location with the shipment.
- Confirm order hand-off and complete delivery in the app.
- The delivery status is updated to completed immediately for all parties.

Earnings Dashboard & Delivery History

- **Earnings Dashboard:** Track earnings for all completed trips and view payout summaries.
- **Delivery History:** View log of all past completed deliveries with date, route, and fare.
- **Disputes:** Report any trip or pickup problems under Report Issue and track them in **My Issues**.

Interactive Help Center

The Help Center is built into the app for every role (Wholesaler, Retailer, Driver) under Settings to provide instant step-by-step guidance:

- **Visual Walkthrough:** Shows an introductory step-by-step tutorial explaining core app tasks. Tap **Replay Walkthrough** to view it again anytime.
- **Category Filters:** Filter guides by category:
 - **Retailer:** Shopping, Orders, Support, Account
 - **Wholesaler:** Stock, Orders, Insights, Support
 - **Driver:** Getting Started, Deliveries, Earnings, Support
- **Direct Screen Navigation:** Tapping any Help Card (e.g. "*Browse and search*", "*Manage your cart*", "*Update stock*", "*Review transport requests*", "*Confirm delivery*") directly opens that screen in the app so you can perform the task immediately.

Support Center

When you need assistance from the support team, open the Support Center under Settings:

- **Choose Issue Category:** Select from categories such as *Payment Issues*, *Order Issues*, *Incoming Order Issues*, *Delivery Issues*, *Dispatch & Pickup*, *Trip & Assignment*, *Goods / Product Issues*, *Seller Issues*, *Account Issues*, *Technical Issues*, or *Safety*.
- **Select Specific Problem & Contact Directly:** Choose the specific problem description from the list, add any optional details, and contact the support team directly for assistance and quick resolution.
